Salihu Hassan

Fullstack Web Developer | UI/UX Designer | Software Engineer

📍 Calabar, Nigeria | ✉ salihubarup@gmail.com | 🌐 [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Professional Summary

I am a self-taught fullstack web developer with over **4 years of experience** crafting digital solutions that merge **clean UI/UX design**, **robust backend systems**, and **scalable performance**. My expertise spans HTML, CSS, JavaScript, PHP/Laravel, React/Next.js, and payment integrations like Paystack and Flutterwave. I have delivered premium projects for hospitality, SaaS, and e-commerce sectors, with a focus on precision, reliability, and end-user satisfaction.

Professional Experience

Freelance Fullstack Web Developer

2019 — Present | Calabar, Nigeria

- Designed, developed, and deployed **responsive, high-performance websites and web apps** for businesses and brands.
- Delivered projects with **premium UIs**, custom backend solutions, and integrated payment gateways.
- Notable Projects:
    - **DeGrand Hotel Website** – Complete booking system, responsive design, secure payment integration, staff-friendly CMS.
    - **SmartSummary App** – SaaS platform with React frontend and Laravel backend, optimized for scalability and performance.
    - **Barup Store** – E-commerce platform with custom product management and secure checkout.
- Implemented **SEO-friendly and accessible designs**, ensuring optimal user engagement and visibility.
- Mentored junior developers and provided training on HTML, CSS, and JavaScript frameworks.

Web Development Intern / Junior Developer

2020-2022 | Remote & Freelance

- Built end-to-end solutions using **React, Tailwind CSS, PHP, Laravel, MySQL**.

- Focused on **interactive interfaces** and **database-driven web applications**.
- Assisted in client consultations to translate business requirements into technical solutions.
- Learned best practices for code architecture, version control, and agile workflows.
